

Leading the world to
better performance

Now there's a flexible, affordable way to achieve your compliance training goals.

In the Life Sciences industry, it's vital that your people are aligned with the processes they need to perform within regulations. Making that happen, however, can be a budgetary and logistical challenge.

Fortunately, GP has a solution. GPiLearn Rx is a flexible and affordable learning solution with validated courses designed for optimum effectiveness. Now your people don't have to wait for a course to come available. They can have the training tools they need anytime, anywhere.

Interactive courseware designed to make learning stick.

GP's library of e-learning courses features 30 modules based around Good Manufacturing Practice, Good Laboratory Practice, and Good Clinical Practice (GxP) topics. With GPiLearn Rx, you'll always have the courses you want, the way you want them:

- ▶ Fully customizable content
- ▶ Interactive courseware with knowledge checks throughout content and a summary exam at the end of each course
- ▶ Industry-proven and validated courseware
- ▶ Several authoring formats available, including Articulate, Lectora, Breeze, and HTML/Flash
- ▶ Language options
- ▶ Flexible tracking and management to our centralized Learning Management System (LMS) or your own

A powerful portal that conforms to your requirements.

GPiLearn Rx was designed with the flexibility needed to meet the demands of life sciences companies of every size and organizational structure. Using our proven infrastructure, we built in flexible options for each organization to receive the level of solution they need to educate their people, meet their budgets, and ensure compliance:

- ▶ Host on GP's LMS or install behind your firewall and run on your own SCORM- or AICC-compliant LMS.
- ▶ Customize the look and feel of the portal to match your branding and processes.
- ▶ Use our courseware, customize your own, or leverage a combination of both.
- ▶ Access a proven, validated, 21 CFR Part 11-compliant solution at a surprisingly affordable rate, with no long-term contracts required.

Count on GP for effective life sciences training and education:

- ▶ A leading training, consulting, and engineering firm for more than 40 years
- ▶ Over 15 years of experience serving the life sciences industry
- ▶ Deep commitment to customer satisfaction and long-term relationships
- ▶ Global presence with offices in North America, Europe, and Asia

The secret behind the industry's most affordable and effective solution.

The key to GPiLearn Rx's affordability is its flexibility. GP built numerous options into GPiLearn Rx, so you can customize the right solution to cut costs and reduce risk within your organization:

- ▶ Purchase our courseware outright or subscribe to individual courses through the GPiLearn Rx portal.
- ▶ Customize course content according to your specifications and authoring environment.
- ▶ Install on-site or host your solution through GP.
- ▶ Deliver courses in your choice of languages.
- ▶ Tailor the look and feel of courses and your portal to your liking.
- ▶ Track course results to your system or to our centralized LMS.
- ▶ Deliver training on-demand—when and where you need it.
- ▶ Use the GPiLearn Rx portal to track all of your training.

A company built around service.

Over the past 40 years, GP has built a reputation for going the extra mile for our clients. As a training, consulting, and engineering firm, we focus mainly on service and only develop products requested by our customers when their particular needs cannot be served by existing solutions. GPiLearn Rx is one of those solutions.

Built upon our existing learning portal infrastructure, GPiLearn Rx was designed specifically to be a flexible, customizable, and affordable solution—completely unlike anything else offered in the industry. Our extensive experience in e-learning and courseware development makes GPiLearn Rx a natural extension of our consulting and training business. It has been tested, validated, and recommended for your use by the industry partners for whom it was originally developed.

A growing library of 30 courses, including:

- ▶ Overviews of Good Manufacturing, Laboratory, and Clinical Practice
- ▶ Principles of Good Documentation
- ▶ Risk Management 1: Key Concepts and Definitions
- ▶ Vendor Certification for Pharmaceutical Manufacturers
- ▶ Writing and Reviewing SOPs
- ▶ Other courses related to compliance in the Pharmaceutical, Biotech, and Medical Device industries

For a demo of GPiLearn Rx or to inquire about our training and consulting services, visit <http://lifesciences.gpworldwide.com/rx.aspx> or call 1.888.843.4784 today.

Count on GP for revolutionary training and e-learning solutions.

At GP, we look forward to introducing you to the industry's most flexible and affordable e-learning solution, GPiLearn Rx. We believe it will revolutionize the way you train your people and manage risk, just as it has done for our clients.
